

SEPTEMBER 2026 QUARTERLY REPORT

The Board of FIN Resources Limited (ASX: FIN) (FIN or the Company) is pleased to provide its Quarterly Activities Report and Appendix 5B for the period ended 30 September 2026.

Highlights

Cabin Lake Gold Project

- Completion of the 2026 summer exploration drilling program at the 100%-owned Cabin Lake Gold Project, comprising:
 - **1,149 metres of diamond drilling across nine drillholes testing eight priority targets;**
 - **Six induced polarisation (IP) targets and two magnetic/structural targets; and**
 - **Step-out drilling testing prospective exploration targets in areas with little or no historical drilling**
- Geological logging identified sulphidic Iron Formation in six drillholes
- All drillholes displayed faulting, veining and alteration, providing information to refine the Company's geological interpretations
- Drillholes have been sampled in their entirety from top of bedrock to end of hole
- All samples submitted for Gold and Silver analysis by PhotonAssay™ at MSALABS. Assay results are pending
- This summer drilling program significantly improved the Company's understanding of the broader Cabin Lake mineralised corridor
- Targets not tested during the summer campaign are being reviewed for potential drilling during the 2026–27 winter season, when snow vehicle access is expected to improve accessibility.

Cabin Lake Gold Project, Northwest Territories, Canada

The Company's primary focus during the September 2026 quarter was the completion of the 2026 summer exploration program at its 100%-owned Cabin Lake Gold Project in Canada's Northwest Territories.

The drilling campaign comprised 1,149 metres of diamond drilling across nine drillholes testing eight priority exploration targets. Targets were selected using integrated geological, geophysical and structural information, including the 2026 winter geophysical surveys and structural mapping undertaken during the September quarter.

The program's completion and initial geological observations were reported in the Company's ASX announcement dated 8 October 2026, "Cabin Lake Step Out Program Extends Gold Search".

Figure 1: 2026 summer drillhole collars and plan-projected traces over the modelled IP chargeability slice at 50 metres RL. Coordinates: NAD83 / UTM Zone 11N.

Initial geological logging identified sulphide-bearing iron formation in CL-26-010, CL-26-011, CL-26-013, CL-26-014, CL-26-015 and CL-26-016. The logged material is similar in character to the Bugow Iron Formation associated with previously reported gold mineralisation at Cabin Lake. This geological similarity does not establish the presence or grade of gold in the newly drilled intervals.

Holes CL-26-009 and CL-26-015 tested an IP anomaly between the Beaver and Andrew South prospects. Sulphide-bearing iron formation was logged in CL-26-015. Its geological position is being evaluated to determine its relationship to previously mapped iron formation.

Figure 2: 2026 Summer drilling program drillholes collars and traces over 2026 winter ground magnetics TMI map

Holes CL-26-010 and CL-26-011 were drilled into two distinct IP targets located on both sides of a magnetic low under an outcropping ridge with Bugow Iron Formation occurrences.

Hole CL-26-012 was designed to test an IP anomaly associated with a north-south structure, highlighted by a magnetic low and interpreted to be structurally connected to the target areas tested by holes CL-26-010 and CL-26-011.

Holes CL-26-013 and CL-26-014 were drilled into two distinct IP anomalies interpreted to be associated with the Bugow Iron Formation near the Andrew and Andrew South prospects in zones within gaps in historical drilling coverage.

Holes CL-26-016 and CL-26-017 were drilled into targets generated during the summer campaign through field observations backed by the magnetics data from the winter program. The holes tested magnetic and structural targets interpreted before drilling to represent the eastern and western limbs of a possible fold.

The eastern zone, tested by drillhole CL-26-016, contains limited surface exposures and sub-outcrop of the Bugow Iron Formation, with weathering characteristics and geomorphological features similar to those observed at the high-grade Arrow prospect. A well-defined magnetic high in the ground magnetic survey data supported the interpretation that iron formation extends beneath the surface.

The western zone, tested by hole CL-26-017 was interpreted as a shallow east dipping syncline limb where the Bugow Iron Formation would have been concealed under glacial till and vegetation cover. Geological logging of CL-26-017 indicates that the interpreted syncline geometry is unlikely at this location. The orientation of the geology does not support the presence of a fold in this exact location, however, the magnetic high drilled by CL-26-017 coincides with sulphidic Iron Formation comparable to the Bugow Iron Formation.

The drilling program significantly advanced the Company's understanding of the Cabin Lake geology. Importantly, it showed that a number of sulphidic Iron Formation zones may be present at several levels in the stratigraphy. The Bugow Iron Formation outcrops historically mapped and explored may represent only part of the iron formation horizons present within the stratigraphy.

As gold occurs near or within the Bugow Iron Formation, the identification of additional interpreted iron formation horizons expands the prospective geological settings for further exploration within the Cabin Lake project. Assay results are required to determine whether these horizons contain gold mineralisation.

The step-out exploration drilling program identified additional prospective geological zones and expanded the areas available for follow-up exploration.

Next Steps

- Assays expected during the December Quarter.
- Winter geophysics expanding IP footprint supported by MIP.
- Preparation for winter drilling based on the summer success and the expansion of geophysical coverage.

Northwest Territories Mining Incentive Program (MIP)

The Company was approved a C\$111,034 co-funding grant under the Northwest Territories MIP to support geophysical exploration at Cabin Lake. The Company received C\$94,376 of the grant during the quarter. The funding will be used to expand high-resolution induced polarisation (IP) and ground magnetic surveys across the project area.

McKenzie Springs Project and Mt Tremblant Projects

During the quarter, the Company surrendered the McKenzie Springs Project. Limited work was done on the Mt Tremblant Projects. The Company remains focused on preserving cash reserves and maintaining its remaining core tenements in good standing.

CORPORATE

Capital Raising

On 3 August 2026, the Company announced that it had received firm commitments to raise A\$1,700,000 before costs through the issue of 425,000,000 ordinary shares at A\$0.004 per share, together with one free-attaching option for every share subscribed for, exercisable at A\$0.008 on or before 31 December 2028.

Tranche 1 comprised 216,473,416 shares, of which 186,638,416 shares were issued on 11 August 2026 and 29,835,000 shares were issued on 17 August 2026. On 18 September 2026, shareholders approved the ratification of the Tranche 1 shares and approved the issue of 208,526,584 Tranche 2 shares, 425,000,000 free-attaching options and 63,750,000 options to the Joint Lead Managers. The Tranche 2 shares and approved options were issued on 23 September 2026.

Financial Commentary

The Quarterly Cashflow Report (Appendix 5B) for the period ending 30 September 2026 provides an overview of the Company's financial activities. The Company had A\$1.55m in cash at the end of the quarter. Expenditure on exploration during the reporting period amounted to A\$508k primarily related to the drilling activities at the Cabin Lake Project. Payments for administration and corporate costs amounted to A\$252k and included costs associated with compliance and consulting fees. Payments to related parties and their associates during the current quarter amounted to A\$55k and comprised directors' wages, superannuation and consulting fees.

ASX Listing Rule 5.3.2: Mining production and development activity expenditure for the quarter was nil.

FIN Resources Limited Tenements

Refer to Appendix A for the status of FIN's tenements.

Forward looking statements

This announcement contains forward looking statements relating to FIN's exploration activities, planned geophysical programs and the potential outcomes of those activities at the Cabin Lake Gold Project. These statements are based on the Company's current expectations and assumptions and are subject to risks and uncertainties that may cause actual results to differ materially from those expressed or implied. No assurance can be given that planned exploration activities will proceed as anticipated, that drilling will be completed as planned or that exploration will identify further gold mineralisation. Investors should not place undue reliance on forward looking statements. Except as required by law, FIN undertakes no obligation to update or revise these statements.

Competent Person statement

The information in this announcement that relates to the 2026 summer drilling campaign is based on information compiled by FIN and acquired under direct on-site supervision of Mr Xavier Braud, who is a Member of the Australian Institute of Geoscientists. Mr Braud is a geological consultant to FIN Resources Limited and has sufficient experience relevant to the style of mineralisation and type of deposit under consideration, and to the activity being undertaken, to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Braud consents to the inclusion of the information in the form and context in which it appears.

The information in this announcement that relates to Exploration Results acquired by FIN in the 2026 winter drilling campaign and all historical exploration results referred to in this announcement, is based on information compiled by FIN and reviewed by Mr Gary Powell, who is a Member of the Australian Institute of Geoscientists. Mr Powell is a geological consultant to FIN Resources Limited and has sufficient experience relevant to the style of mineralisation and type of deposit under consideration, and to the activity being undertaken, to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Powell consents to the inclusion of the information in the form and context in which it appears.

Prior exploration results

The information in this announcement relating to previously reported Exploration Results is extracted from FIN's ASX announcements dated 4 February 2026, titled "Cabin Lake Assays Upgraded Through Systematic Core Resampling"; 27 March 2026, titled "First Cabin Lake Hole Intersects Broad Sulphide Bearing BIF"; 15 April 2026, titled "Massive Sulphide Mineralisation Confirmed at Arrow Prospect"; 28 April 2026, titled "26.2 m at 12 g/t Au Confirms Broad High-Grade Gold System"; 20 May 2026, titled "Multiple Shallow High-Grade Gold Zones Confirmed"; 15 June 2026, titled "Shallow High-Grade Gold Confirmed and New Targets Identified"; and 21 August 2026, titled "Drilling Underway Across 14 Priority Gold Targets Cabin Lake".

The Company confirms that it is not aware of any new information or data that materially affects the information contained in those announcements and that the form and context in which the Competent Person's findings are presented have not been materially modified from the original announcements.

About FIN Resources Limited

FIN Resources Limited owns a 100% interest in the Cabin Lake Gold Project, located approximately 105 kilometres northwest of Yellowknife in Canada's Northwest Territories. The project is situated within the Archean Slave Craton, an established gold producing region.

Gold mineralisation at Cabin Lake is hosted within sulphide bearing banded iron formation of the Bugow Iron Formation. Mineralisation is associated principally with pyrite and pyrrhotite, with minor arsenopyrite, and is interpreted to be structurally controlled.

Historical drilling, FIN's core resampling programs and the Company's 2026 winter drilling campaign have identified gold mineralisation across several prospects, including Arrow, Beaver and Andrew South. Exploration is focused along approximately 15 kilometres of prospective Bugow Iron Formation strike.

The 2026 summer drilling program comprised 1,149m of diamond drilling across nine drillholes testing eight priority exploration target areas. Assays are pending, with results to be integrated with geological and geophysical data to refine follow-up drilling priorities.

The Project includes:

- Gold mineralisation identified within the Bugow Iron Formation across multiple prospects
- Approximately 15 kilometres of prospective Bugow Iron Formation strike
- A location approximately 105 kilometres northwest of Yellowknife
- Established engagement with the Tłıchǫ Government, including access agreements and support for field activities
- A location within the Slave Craton, which also hosts the historical Lupin Gold Mine

Figure 3: Cabin Lake Gold Project location relative to selected Northwest Territories gold mines and projects; comparative mineral endowments are publicly reported, relate to projects not owned by FIN and are not indicative of mineralisation at Cabin Lake.

5.1	Bank balances	1,549	743
5.2	Call deposits	-	-
5.3	Bank overdrafts	-	-
5.4	Other (provide details)	-	-
5.5	Cash and cash equivalents at end of quarter (should equal item 4.6 above)	1,549	743

6.	Payments to related parties of the entity and their associates	Current quarter \$A'000
6.1	Aggregate amount of payments to related parties and their associates included in item 1	55
6.2	Aggregate amount of payments to related parties and their associates included in item 2	-
<i>Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.</i> - Payment of director wages, superannuation and consulting fees (\$55k)		

7.	Financing facilities <i>Note: the term "facility" includes all forms of financing arrangements available to the entity.</i> <i>Add notes as necessary for an understanding of the sources of finance available to the entity.</i>	Total facility amount at quarter end \$A'000	Amount drawn at quarter end \$A'000
7.1	Loan facilities	-	-
7.2	Credit standby arrangements	-	-
7.3	Other (please specify)	-	-
7.4	Total financing facilities	-	-
7.5	Unused financing facilities available at quarter end		-
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		

8.	Estimated cash available for future operating activities	\$A'000
8.1	Net cash from / (used in) operating activities (item 1.9)	(252)
8.2	(Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(508)
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(760)
8.4	Cash and cash equivalents at quarter end (item 4.6)	1,549
8.5	Unused finance facilities available at quarter end (item 7.5)	-
8.6	Total available funding (item 8.4 + item 8.5)	1,549
8.7	Estimated quarters of funding available (item 8.6 divided by item 8.3)	2.04
<i>Note: If the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>		
8.8	If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1	Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
	Answer: N/A	
8.8.2	Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
	Answer: N/A	

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: N/A

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: 30 October 2026

Authorised by: **The Board of Fin Resources Limited**
(Name of body or officer authorising release – see note 4)

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [*name of board committee – eg Audit and Risk Committee*]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
